NOTE: 4036 parking guards do not have ANY functionality since it was never defined in user stories.

1. Intro
   - ☐ *Hi and welcome to our demonstration* **share screen**
2. registration
   - ☐ user role selection -> car owner
   - ☐ *A new user needs to create an account* *go to registration:*
   - ☐ *We provide a First and Last name, together with email adress and password* *fill fields*
   - ☐ *The profile selection helps us choose the desired functionality. In this particular case we will use the* *"Car Owner"* *for demonstration purposes.*
   - ☐ *After completing the registration* *click register* *a "welcome mail" is sent to the indicated adress.*
   - ☐ *Login and show verify notification, try to access my pages*
   - ☐ The Welcome page displays a reminder that we need to verify our account, and until then, "my pages" are disabled. Here we receive a notification about that.
   - ☐ LOGOUT *Here we can see the logout functionality that can be used to terminate our session and allow to login with different accounts. But first let's confirm our email.*
   - ☐ kill the browser window (just in case session is stored), go to email
3. Email
   - ☐ verify link
   - ☐ *By following the link, our email account verification completes and we can use the features that are associated with our user profile.*
4. Login
   - ☐ smart phone view
   - ☐ *To simulate a phone screen, we can view the page in developer console,* *start dev console, iphone 5 view.* *The input fields can be activated by touch and Car owner functionality supports smart phone resolutions , but for the demonstration purposes it is easier to demonstrate using a PC.*
   - ☐ *Login*
5. Register a Car x 2
   - ☐ *Let's register a new vehicle. ERA123* *demonstrate selector* *and add a second car ASD321, they can be selected here* *demonstrate selector*
   - ☐ remove car x1
   - ☐ *We will remove one of our vehicles,* *remove ASD32, demonstrate it is gone* *and confirm it's removal.*
6. Park at Kalmar
   - ☐ *Let's park our vehicle at Kalmar parking zone.* Park it
   - ☐ get notification
   - ☐ *One of our goals was to create a geolocation functionality that would send a notification when phone user would be more then 20 km away from the parked vehicle. I myself live in Umeå, and as you can see here,* *Open notification* *I am now notified that my car is very very far away.* *Unpark*
   - ☐ park at Umeå
   - ☐ *To verify that no false alarms will be sent, let's park at Umeå zone instead.*
   - ☐ no notification
   - ☐ *Wait 3 seconds,* *parking in progress, and no out of range notifications as expected.Unpark*
7. Change email and password
   - ☐ *A user should of course be able to change his email and password, this can be done by accessing user settings* *access user settings* *Let's change it now* *change*

- [ ] newemail@gmail.com
- [ ] qwerty123
- [ ] *And save. We will logout and access the system with our new credentials*

8. Logout
   - [ ] login with new credentials
   - [ ] logout
   - [ ] *Let's take a look at our admin functionality*

9. Login as admin admin@demo.com 123456
   - [ ] *The Customer class functionality here is used for feature access control, for example park owner/ car owner feature separation. New classes, such as park guard can be created here allowing further development of specific features.*
   - [ ] Create DemoClass
   - [ ] *A system administrator should be able to set a global message for all users, lets set a demonstration message now.*
   - [ ] Set message: Demonstration message!
   - [ ] *Let's logout and look at profile selection.* Show registration page change in class selection. *Our demo class is available now. We will login as demo park owner account to view our message.*

10. Login as demo.park@gmail.com Park owner
    - [ ] 123456
    - [ ] *Here we can, among other things, see the message notification.* *Open, read and close.*
    - [ ] *Main park owner features are the Create Read Update and Delete a parking area. Here we are presented with a Map coordinate selection to easily acquire geolocation coordinates and a timezone/rate table that can be configured to meet customers specifications. Let's remove current Kalmar zone.*
    - [ ] Remove Kalmar
    - [ ] *By selecting a position, the longitude and latitude are acquired, timezones can be set:* *set coords and timezones name the zone and save, navigate to other zones to show how table and fields update, then make some changes to showoff*
    - [ ] Create new Zone
    - [ ] Edit timezones <STALL FOR TIME BY SHOWING OFF ZONE CREATION AND TIMEZONE RATES IF MORE THEN 3 MIN LEFT>
    - [ ] *Finally we will park a car at this new zone by using our car owner account*

11. Logout
    - [ ] login as newemail@gmail.com qwerty123
    - [ ] view new Zone
    - [ ] *Here we can see the new Zone available for parking. And can proceed with demonstration of account termination.* *Go to user settings and remove account*
    - [ ] Remove account
    - [ ] Try to login to verify it is removed
    - [ ] *It is gone. Thank you for your time, now Maria will be talking about our reccomendations on further development.*

11	4200	As a user I want to remove the account so I can stop using it.
10	4387	As a parking owner I want to edit the parking area so I can adapt to physical changes.
10	4206	As a parking owner I want to set different hourly rates for an parking area so I can adapt my charge plan to changes.
10	3886	As a parking owner I want to create an parking area so I can start configuring time zones and payments.
10	4205	As a parking owner I want to remove an parking area so I can use it for other purposes.
9	4212	As a system owner I want to notify users so that they can be made aware of important messages.
9	3856	As an system administrator I want to create user roles so users can start registering to the system.
9	4036	As a system administrator I want to add parking guard users so they can start checking the parking lot
8,2	4039	As a user I want to log off so no one else can get into my account.
7	4411	As a user I want to change my email so I can use my new email address.
7	4388	As a user I want to change my password so I can make my account more secure
6	4530	As a user I want to be notified if i am outside the parking area so I can cancel the ticket.
6	4534	As a user I want to chose a parking area so I can park my vehicle.
5	4199	As a user I want to remove a vehicle from my account so I don't pay for some one elses vehicle.
5	3887	As a user I want to add a vehicle to my account so I can park it.
4	4557	As a car owner I want to be able to use my site from a smart phone browser so I can be location agnostic.
4	3855	As a user I want to log in so I can start using the system.
3	4033	As a user I want to have my account verified using email so no one else can impersonate me.
3	3888	As a system I want to send a welcome letter to a new user so they feel welcomed.
2	3854	As a guest I want to create an account so I can start using the system.
