Demo:

good looking system, no problems so far.
Minimalist interface is good. Keep this approach.
<u>Lars wants to complete the stories in redmine, do not do this</u>

new Tasks: see redmine for breakdown

3886 Parking area feature
just a rectangle latitude and longitude coords ui to create parking slots
all configuration is later stories
4199 remove vehicle
> to have several vehicles
> to display registered vehicles
> to remove one of them

4205 remove parking area
4212 system owner notify
display notification in GUI, possibility to confirm it. A user only sees a message once.
Reccomended news component or a news landing page (welcome)

Notes

Refactoring and continued analysis are reccomended.
start working as it is. if not finished on time 4212 is pushed to sprint 4

Refactoring and improvement effort if time allows:

Vue router refactor
encrypted token for session
GUI clean up
GUI access control routing

Todo

switch scrum master -> Kirill unless anyone else wants to do this.
